

Stop for Safety

And, remember, trains are wide

WHAT TO DO IF YOUR VEHICLE STALLS OR HANGS UP ON THE TRACKS

1. GET OUT IMMEDIATELY.

Evacuate your vehicle. (Trains traveling at 60 mph may take a mile or more to stop.)

2. Move away.

Walk **toward the oncoming train, and away from the tracks** at a 45-degree angle. (If your vehicle is hit, debris will spread out from the tracks in the same direction the train is moving.)

3.
